Remedial works

To install a small metal enclosure under DB3 to house RCBOs which allow the correct protection B curve for the circuits they protect. Removing old RCBO units and placing blanks in their place.

To replace non compliant MCB in DB1 to an RCBO to protect the circuit of the ring main on the first floor front rooms and corridor. This would also include DB5. Due to the nature of the installation, this would be the only way for compliance.

Description	Quantity	Unit Price	Discount	VAT	Amount GBP	
TJR hourly rate	3.00	60.00		20%	180.00	
Small metal enclosure	1.00	23.77	10.00%	20%	21.39	
32A RCBO budget	3.00	41.75	10.00%	20%	112.73	
Subtotal <i>(includes a discount of 14.90)</i>					314.12	
				TOTAL VAT	62.83	
					TOTAL GBP	376.95

Terms

-FOR WORK OVER £250 A 25% DEPOSIT WILL BE REQUIRED. Once approval has been given an invoice will be sent.

-All work is guaranteed by NAPIT with a completed certificate.

-A Small Works Contract is agreed with all estimates between the client mentioned above and TJR Electrical Ltd by accepting this estimate.

-All extra materials required will be invoiced separately.

-This estimated price takes into consideration that all work done prior to TJR Electrical Ltd has been approved, that suitable protective devices, earthing and correct circuit identification are in place.

-In accordance with the new 18th Edition regulations any new circuit or circuit that has been altered in any way is required to be protected by an RCD or similar device.

-Protected by CREDITFOCUS www.creditfocus.co.uk
