

Community Buildings Committee Meeting

Date: 4th April 2024

Number: CB057

To consider the request to install a noticeboard in the Queen's Hall entrance for Greener Cuckfield News

1. Introduction

Cuckfield Parish Council has been hosting a recycling station at the Queen's Hall which is managed by Greener Cuckfield since June 2022. This is an extremely popular facility and is well used by residents. Greener Cuckfield are now requesting permission for a noticeboard to be installed in the entrance hall above the recycling station,

2. Proposal

Greener Cuckfield are requesting permission to install a Community Recycling noticeboard at the Queens Hall. This would be a 70 x 70cm board (plus a thin frame painted a tasteful colour) attached on the left entrance hall wall, just above the white recycling boxes.

This would enable Greener Cuckfield to communicate directly with the people who use the Community Recycling Hub to tell them of changes to the schemes (like recent changes to the dental waste scheme) or emphasise what items we can and cannot take in a neater and more comprehensive way. They could share more information on how people can contact us with recycling queries and also other initiatives in the community they might be interested to hear about.

Greener Cuckfield have provided assurances that they would make sure the noticeboard always looked neat and tidy as they value the Queen's Hall as an attractive village asset.
