Briefly describe the project or purpose for which you require a grant		Our strategy is twofold. Firstly, to challenge the housing algorithm and planning policy at a national level and secondly to evidence sound planning reasons against this particular development. The grant we seek is in support of this second objective and consists of the commissioning of a landscape architect who can (in part) provide this evidence.			

How will this project benefit the community or residents of Cuckfield?	The development of 1600 houses on the land that lies between the villages of Ansty and Cuckfield will blight the lives of the people of Cuckfield by vastly increasing traffic on local roads, destroying the iconic view of Holy Trinity Church, placing intolerable burdens on schools, primary medical care, and vastly overburdening the already stretched water supply both fresh and foul.

If Yes please write in your VAT number	N/A
