

Generating a wants and needs menu survey Please complete and send to steve.hill@westsussex.gov.uk . It will help us gain understanding of the kinds of things parishes need and that could potentially be provided by a WSCC contractor as 'social value'.

West Sussex Highways - creating a menu of parish wants and needs
-Name of parish or community organisation
-Contact details
-Did you know that you can buy additional highways services (for example grass cutting or drain clearing)? If so which services would you be most interested in purchasing, including or in addition to the ones mentioned?
-Are you already carrying out additional work (for example as part of Improving Local Places and Space, or a Community Road Verge)?
-What kind of additional work would you like to do in your area
- If you have a programme of community activities or needs attach here
-What would you like help with? (for example traffic management; people to carry out work; tools, equipment or materials?)
- if you could imagine the ideal menu of additional work for your area, to improve the way it looks and works for residents, what would it be?
