Item 9.b - Responses to Requests for Estimates to Repair Failing Headstones at the Cemetery

After a “topple testing” exercise was carried out by Alex Bull our groundsman to discover how many headstones might present a danger to visitors and staff at the church yard, I contacted four stone masons in August with a request for estimates to make good the 31 stones that were deemed to be failing.

Of the companies that I approached one declined the request, but representatives of the other three all visited the churchyard and have subsequently submitted estimates. They are as follows:

- 1) £6,210 (+ VAT)
- 2) £1,690 (+ VAT)
- 3) £1,860 incl. VAT (i.e. £1,550 + VAT)

Paul M Stevens

Operations Officer, Cuckfield Parish Council
