RT014 To note the Actions List

All actions were noted.

RT015 To review a summary of data obtained from the Speed Indicator Device (SID)

There had been insufficient time to review the SID data prior to the meeting. The Clerk was instructed to ensure the data was available earlier in future, and to review the proposed installation locations and provide feedback regarding the frequency of moving SID around the village.

Locating SID on Cuckfield bypass was discussed amid concerns of safety issues whilst mounting the devices. The Clerk was instructed to review the bypass for suitable locations and if there are any, discuss options for safe installation.

A cycle of installing SID around the village with the display set to not warn motorists of their speeds was also agreed.

RT016 To consider the outcome of the meeting held with a traffic consultant on Thursday 7th October to discuss traffic calming measures suitable for potential implementation around the village and agree next steps.

The meeting with the traffic consultant had been positive with the proposal to document the issues experienced across the village before moving to trying to identify solutions. A list had been reviewed and was attached to these minutes for information. Any future comments should be shared with the Clerk.

The list would also be shared on social media for information.

RT017 To note items arising after the preparation of this agenda which the Chairman agrees to take as urgent. Such matters will be for noting only or deferral to a future meeting only.

None.
