Internet Data (Cookies)
Policy 41

Adoption Date: 25.4.19
Review Date: 6.10.21

1. Overview

The policy outlines how personal data is stored used on the Cuckfield Parish Council website, as per GDPR requirements.

2. Personal Data

Cuckfield Parish Council's website does capture some personal information.   This is predominantly through the use of reCAPTCHA to prevent/reduce the number of spam emails received making enquiries about our hall availability. This data is not stored or used for any reason other than to eliminate spam emails.

The only other personal data that is shared is when an enquiry is sent through the website to the Parish Council office.

The website does not capture or store any personal data.
